KNOWLEDGE. RELATIONSHIPS. OPPORTUNITY.

Aerospace. Sustainment. Supply solutions.

Sourcing, manufacturing support, repair management and sustainment for customer-defined requirements.

Connecting your requirement with the resources to move it forward.

COORDINATED SUPPORT

One requirement. Connected capabilities.

NAE coordinates the supply, manufacturing and service resources needed to support operational readiness.

01

Strategic sourcing

Aircraft spares, aviation hardware, COTS items, consumables and hard-to-find legacy inventory.

02

Manufacturing support

Build-to-print, precision machining, forging, casting and sheet metal; aluminum, steel, titanium and plastics.

03

Repair management

Repair and overhaul coordination, exchange options, progress reporting and AOG expediting.

04

Aircraft support

Aircraft ground support equipment, just-in-time supply and longer-term sourcing arrangements.

05

Value-added services

Military-spec packing, crating, kitting, marking and labeling coordination.

06

Delivery coordination

Hazardous-material handling, export coordination and requirement-specific logistics.

PLATFORM COVERAGE & SOURCING

Focused on aerospace readiness.

Combat aircraft, transport fleets, rotary-wing aircraft and unmanned aviation - supported through coordinated sourcing.

COMBAT AIRCRAFT

F-4, F-5, F-16 and F/A-18 parts and sustainment requirements.

TANKER & TRANSPORT

KC-46, C-130 and C-17 platform sourcing and aviation support.

ROTARY WING & UAV

UH-60 and unmanned aviation requirements defined by the customer.

THREE SOURCING ROUTES

Production channels
OEM and manufacturing resources

Existing inventory
Aftermarket, surplus and legacy stock

Build-to-print
Drawings and technical requirements

ASSURANCE & ENGAGEMENT

Define the requirement. Move it forward.

NAE aligns sourcing resources, documentation and delivery coordination with your technical and contractual needs.

Source review

Part identity, condition, traceability, product-line authorization and technical fit.

Supporting qualifications

Selected resources may include AS9100 Rev D, AS9120 Rev B, AC 00-56B, JCP, ITAR registration and ESD capabilities.

Delivery preparation

Military-spec packing, kitting, crating, marking, hazardous-material shipping and export coordination.

Qualifications apply to selected delivery resources, not NAE. Current status, scope and contractual responsibilities are confirmed for each requirement.

SEND NAE YOUR REQUIREMENT

01 Part identity
Part number, NSN and description

02 Quantity & condition
Required quantity and acceptable condition

03 Technical scope
Drawings, specifications and documentation

04 Delivery priority
Destination, required date and AOG urgency
